SUMMARY

Entry-level data analyst with a B.B.A. in Computer Information Systems and hands-on experience building Power BI/Excel dashboards and reports from cleaned, integrated datasets. Skilled in SQL and Python; Security+ in progress with interest in secure, risk-aware analytics.

EDUCATION

Bachelor of Business Administration, Computer Information Systems

May 2025

Texas State University, San Marcos, Texas

EXPERIENCE

Customer Service & Gymnastics Coach

The Little Gym

August 2025 - Present

- Delivered high-quality customer service to families by clearly explaining programs and addressing questions
- Managed multiple priorities in a fast-paced environment while maintaining professionalism and positivity
- Resolved conflicts and de-escalated issues calmly to ensure a safe and welcoming experience
- Analyzed customer data and follow-up outcomes to improve enrollment rates and customer experience

Data Analytics Intern

June 2023 - August 2023

Harbor Aluminum, Austin, Texas

- Supported team operations and industry engagement at the 2023 Harbor Aluminum Summit in Chicago
- Extracted and integrated data from internal databases, spreadsheets, and external sources for analysis
- Cleaned and standardized large datasets to improve accuracy and reduce reporting inconsistencies
- Translated data findings into trends, generating insights and recommendations to support strategic planning
- Prepared dashboards and reports to effectively present findings to senior employees

PROJECTS

Business Analytics Case Study: Macy's Operations Strategy

Texas State University – Strategic Business Project | Spring 2025

- Analyzed Macy's business model, operational data, and market position to evaluate long-term viability in a changing retail landscape
- Conducted SWOT analysis and trend forecasting using Excel and public financial data to assess Macy's strategic strengths and threats
- Delivered data-driven recommendations on how Macy's can remain competitive through enhanced customer engagement and supply chain optimization

Risk Assessment & Business Continuity Plan

Risk Analysis, Cybersecurity Research, Technical Writing, Team Collaboration

- Conducted risk and threat analysis for ransomware, nation-state APTs, and insider threats, including likelihood, impact, and mitigation strategies
- Contributed to Business Impact Analysis identifying critical systems and downtime tolerance based on real-world regulations

SKILLS

Data Visualization: Power BI (Dashboard creation, Data modeling), Excel (PivotTables, Charts)

Programming: SQL, Python, COBOL, HTML, CSS

Concepts: Risk Assessment, Data Analysis, Network Design, Business Analysis
